

INTRODUCTION

The Government of India has recently launched Mission Vatsalya 2022 in place of Child Protection Services with an aim to emphasize child rights advocacy and awareness and strengthen the Juvenile Justice Care and Protection system. It provides a roadmap for achieving child protection priorities.

The Government of India has also amended the Juvenile Justice (Care and Protection of Children) Act, 2015 and Model Rules, 2016 and recently launched Adoption Regulations, 2022. These amendments provide for a new procedure for adoption, norms for group foster care, new criteria for appointment to Child Welfare Committees/Juvenile Justice Boards and other important provisions relating to the care and protection of children.

Child Resource Centre (CRC) is working as one of the unique initiatives of the Government of Rajasthan (GoR) with technical and financial support from UNICEF to strengthen Child Protection Systems and to promote Child Rights through workforce development building capacities of the primary and other stakeholders.
